PRODUCT: ZINC STEARATE

Formula: (C₁₇H₃₅COO)₂Zn

Mol Weight: 632

As Registry No: 557-05-1

Merck Index No: 10292 (12th Edition)

Beilstein Reference: 4-02-00-01206

Zinc (Di) Stearate is a zinc soap that repels water, insoluble in alcohol ether, soluble in benzene. Zinc Stearate is produced by PENTAGON CHEMICALS at its most modern manufacturing facility and strict quality standards are observed.

Zinc Stearate produced by us is available in free flowing granular and fine white powder form and is produced in several grades according to end application requirements. A

premium TCG grade with HIGH HEAT STABILITY and MOLTEN CLARITY is available for polystyrene, sheet molding compound (SMC/DMC) FRP and master batch manufacturing industries. Likewise, many different grades with varying bulk density from 110 gm/ltr to 400 gm/ltr are available with other varying parameters according to application specific requirements. Available grades are Zinc Stearate -NRML, Zinc Stearate ZS H-SPL, Zinc Stearate ZS TCG.
